# Jerry FREDERIC

Frontend Developer with experience in SaaS solutions and e-commerce projects. Strong proficiency in JavaScript and modern frameworks such as React.js, building intuitive, responsive, and optimized interfaces in agile environment.

## PROFESSIONAL EXPERIENCE

### Frontend Developer

Jun 22 – Mar 25

Wshop • E-commerce SaaS platform • Paris

- BUILD - Design, develop, and integrate new features into the SaaS solution and client websites. - Redesign and improve existing tools to modernize the architecture and reduce technical debt. - Develop and integrate responsive e-commerce partner sites from scratch (Notshycachemire.com, Jonak.fr, Suncoo-paris.fr). - Write and update technical documentation. - Collaborate daily with Product, QA, Design, Marketing (SEO), and Client teams. - Perform pre-production tests to ensure quality and reliability of deployments. - Participate in the launch of partner websites. - Contribute to project brainstorming and kick-offs.
- RUN - Implement new client requests with continuous delivery via CI/CD. - Update and migrate front-end libraries. - Optimize performance (lazy loading, bundle size reduction, improved load times). - Actively participate in code reviews and promote best practices. - Support and onboard new team members.
- TMA / Support - Resolve client tickets and apply fixes on the SaaS platform and partner sites. - Debug, update, and perform corrective maintenance (display issues, functionality, JS errors). - Report and document anomalies related to legacy code. - Implement urgent hotfixes to ensure service availability and continuity.

### Frontend Developer

Feb 20 – Apr 20

NKH • E-commerce • Paris

- Design and full development of a responsive, cross-device e-commerce platform
- Implementation of critical business features: product management, order system, legal notices integration, newsletter, FAQ
- Direct collaboration with business teams to translate business requirements into technical features

### Digital Marketing Consultant

Apr 17 – Dec 18

Freelance • Strategic Support for SMEs

- Develop and implement digital acquisition strategies
- Automate advertising campaigns and optimize conversion rates
- Analyze data and create automated reports to monitor business performance
- Create "one-page" landing pages on the Carrd platform, including HTML/CSS customizations and design adaptations to specific requirements

## EDUCATION
